

Agenda

- Overview the Revised Total Coliform Rule (RTCR)
- Investigate Routine, Repeat, & Addition Routine Sampling
- Explore Total Coliform Monitoring Schedules
- Examine Sample Siting Plans
- Delve into Level I & Level II Assessments - "Find & Fix"
- Consider Seasonal Start Up Procedures
- Q&A

Training Session Dates:

We will email the connection and Zoom information 24 hours prior to each class.

Friday, December 2, 2022

8:00-10:15AM

(15 minutes of breaks)

Maine Water Utilities Association
15 University Dr
Augusta ME 04330

EPA's Revised Total Coliform Rule for Everyone

Everything Operators Need to Know Right Now!

Live "Virtual" Training Sessions

2.0 Maine BLWSO TCHs

TOM'S Water Solutions

Your Instructor:

Tom Bahun II – Tom's Water Solutions

Tom is a Certified Instructional Trainer (CIT), with over 30 years of experience and expertise in developing, designing, and delivering water and wastewater safety, emergency response and operator certification training. He is well known for his fun and energetic training classes drawing upon what his students already know. Tom's focus is to lead his students through socially supported interactions to enhance learning and construct new understandings.

In addition to Tom's vast training experience and abilities, he has a long history of helping water and wastewater systems with his technical and managerial knowledge and understanding. In addition to Tom's training and consulting services provided through Tom's Water Solutions LLC, he is a full-time Water Systems Operator overseeing drinking water treatment and distribution at Maine's largest water and wastewater utility. He holds a State of Maine Class IV Water Treatment and Distribution Operator license, and a Grade 5 Wastewater Treatment Operator license.

Class Description

On February 13, 2013, the Environmental Protection Agency (EPA) published revisions to the 1989 Total Coliform Rule. These revisions were implemented by the Maine Drinking Water Program (ME DWP) on April 1, 2016. Known as the Revised Total Coliform Rule (RTCR), these revisions included several significant changes in the requirements that systems must meet regarding quality and more.

Join MWUA and Tom's Water Solutions as we dive into the RTCR, highlighting the rule's challenges, successes, and what you need to know to ensure compliance. Topics covered will include an overview of the rule revisions, key sampling and monitoring considerations, level assessments, and much more.
