4.0 Maine DEP TCHs**

Your Instructor:

Danny Smith, Ti-SALES - Director of Strategic Markets

With over 30 years of experience in the water and wastewater industry, he has developed a deep insight into the market as well as a particular expertise in chemical feed and monitoring equipment. Water treatment is an increasingly complex, vital field and his personal goal is to make Ti-SALES the number one partner for municipal water & wastewater treatment customers throughout the region.

He joined Ti-SALES in 2021; before that, he served as the Vice President of Sales at a leading New England distributor of fluid handling equipment to manufacturing and municipal markets.

Class Description

Water treatment is a crucial and everyday task with which most systems must contend. Treatment chemicals must be dosed correctly, otherwise, the health of the public, environment, system, and more can be significantly affected.

Join MWUA and Ti-SALES as we take a deep dive into everything chemical feed pumps. From the types of pumps, to how to choose the best pump, to tips, tricks, and accessories to improve your chemical dosing; this presentation is perfect for anyone new to chemical feed pumps or those simply looking for new solutions! Don't miss out!

For anyone working with treatment systems!
